"Health of the Ukrainian people"
to the president
To Sergii Soshynskiy**

The Ministry of Health of Ukraine expresses its respect to the International Charitable Foundation "Health of the Ukrainian People" and has the honor to address the following.

The military threat from the Russian Federation, which is increasing by the minute and disrupts the economic balance, eats away at our forces and resources. At the cost of their own lives, Ukrainians are forced to defend every centimeter of their Motherland and protect the continent from an aggressive neighbor.

Taking into account the above, the Ministry of Health of Ukraine asks the International Charitable Foundation "Health of the Ukrainian People" to contact various institutions, organizations and private individuals in order to receive humanitarian aid within the framework of the Civil Protection Mechanism of the European Union (the list is attached).
